

H2S DRIVER KEY REQUIREMENTS CHECK LIST

Applicant Name:

In order to become a PH driver in our Home to School operation, there are a number of key medical, health and licensing requirements in order to obtain both GCC and Tewkesbury Council approved licensing. These are mandatory requirements, therefore the below criteria represent a legitimate business reason for GO asking and ensuring you can comply.

Key Medical Requirements - not exhaustive and subject to DVLA Group 2 medical (Tick to confirm compliance)

- | | |
|--------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> Free from seiures or epilepsy for over 10 years (medication free) | <input type="checkbox"/> No sleep disorders such as sleep apnoea |
| <input type="checkbox"/> Not taking insulin or any other medication to control diabetes | <input type="checkbox"/> No recent heart, cardio, angina or arrhythmias |
| <input type="checkbox"/> Blood pressure must not consistently exceed 180/100 mmHg | <input type="checkbox"/> Good eye health and any sight correction prescription can not exceed +8 diopres |

General H2S and Licensing Standards and Requirements

- | | |
|----------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> Good use of English Language and be able to read medical and emergency protocols | <input type="checkbox"/> Not lived outside the UK for over 6 months at any point |
| <input type="checkbox"/> Able to obtain a clean DBS (Enhanced Criminal record check) with no unspent convictions | <input type="checkbox"/> Never been disqualified from driving or convicted or any serious motoring offences |
| <input type="checkbox"/> No previous serious motoring convictions | <input type="checkbox"/> Held a valid UK Driving licence for min of 3 years. No greater than six penalty points. |
| <input type="checkbox"/> Fit and healthy enough to pass a first aid training course, and safely administer if needed | <input type="checkbox"/> Fit and healthy enough to safely escort and load/unload and restrain wheelchairs in vehicles |
| <input type="checkbox"/> Have sufficient mobility to be able to respond to passenger safety issues | <input type="checkbox"/> To be able to positively and patiently provide all required support for passengers with SEN requirements |

If there are any of the above key requirements that you are not able to confirm compliance with, this may not automatically preclude the issuing licensing authority from granting you the required permissions to work in the PH / H2S sector, but it is highly adviseable to seek further advise before any costs or committments are made.

Employee signed declaration of the above being accurate and correct:
